PROGRAM & PARTICIPANTS

Alexandria site host

Minneapolis site host

An experiential learning and networking event of

An initiative of Advance IT Minnesota and Minnesota Innovation Lab

Advance IT Minnesota is a MnSCU Center of Excellence in IT and Security hosted by Metropolitan State University. Minnesota Cyber Careers Consortium (MnC3) is a statewide employer/industry initiative of Advance IT Minnesota and Minnesota Innovation Lab (MNiLab), a Minnesota non-profit 501(c)(3) organization, to grow Minnesota cyber talent.

2017 MINNESOTA COLLEGIATE CYBER DEFENSE COMPETITION

WELCOME! This competition allows institutions of higher education to assess their students' depth of understanding and operational competency in managing the challenges inherent in protecting business IT networks. We have seven teams competing in this year's contest, three at Alexandria Tech and Community College and four at Minneapolis Community and Technical College.

Advance IT Minnesota and Minnesota Innovation Lab are happy to bring these teams together this year with assistance from the Center for Systems Security and Information Assurance (CSSIA) and hosting support of Alexandria Technical and Community College and Minneapolis Community and Technical College.

The top three Minnesota teams will be recognized at the Secure360 conference on May 17, 2017. The first place team will compete in the 2017 Midwest Regional CCDC at Moraine Valley Community College, Illinois, on March 17-18, 2017. The Midwest Regional CCDC winner will be competing at the 2017 National CCDC in San Antonio, Texas, on April 13-15, 2017.

This program provides an anticipated schedule of activities and a listing of participants in various roles. The State Director of Minnesota CCDC and the Chief Judge reserve the right to change the schedule as necessary.

Thanks to staff & volunteers in the Black and Gold Teams for facilitating this event,

PROGRAM & PARTICIPANTS

Alexandria Site
