

2016 Cybersecurity Skills Innovation (CSi) Boot Camp

The Camp runs from June 20-24, with Student Showcase from 8:30-10:30 on Friday, June 24 (opportunity for sponsor interaction and networking).

- ❖ Want to engage with the top upcoming security talent in the state?
- ❖ Want to showcase yourself as a potential employer?
- ❖ Want to contribute to the growth of advanced security professionals?

Become a CSi Sponsor

Thirty top cybersecurity students from Minnesota colleges and universities are engaged in an intense week-long program to develop advanced and innovative skills in cyber defense, vulnerability analysis and testing, security operations and forensics, and application security. Participants are taken on field trips and coached on non-technical skills. The Camp culminates with Student Spotlight presentation to employers and a comprehensive assessment to validate learning.
